

Looking for: Full time position in 2027 / Internships with conversion possibilities

YONG SOOK MUN

Aspiring ML/AI Engineer, Data Scientist

I'm a passionate student about data and AI and always eager to learn, I'm excited to apply my skills to real-world problems and contribute to innovative projects.

EDUCATION

2023 - 2027

National University of Singapore
Bachelors of Science (Business Analytics) Honours

Grade: First Class Honours

- NUS School of Computing
- Lim Boon Heng Book Prize

2021 - 2022

Hwa Chong Institution
A-Levels

Grade: 90/90 RP

- Hwa Chong Diploma (Distinction)
- Best Interactor (HCInteract Club)

ACTIVITIES

City Ballet Academy
Ballet Teacher/Dancer

Achieved numerous top awards and scholarships as a dancer, later taught ballet at the same studio.

NUS Dance Synergy
Dance Captain

Spearheaded productions and led a CCA of over 100 members.

NUS Rotaract Club
CommServ Executive

Planned and organised volunteering sessions with NKF.

NUS Sports Club

Marketing Executive

Streamlined sending customised mass email by **coding** a program in **Apps Script**.

SKILLS

Programming Languages: Python, SQL, R, Java, JavaScript

Data: pandas, seaborn, Matplotlib, Scipy, Tableau, BeautifulSoup

AI/ML: PyTorch, scikit-learn, LangChain, LangGraph, HuggingFace, OpenCV, Temporal

Web Development: HTML, CSS, Vue.js, React.js, FastAPI

Soft Skills: Teamwork, Attention to detail, Adaptable, Problem Solving, Communication

WORK EXPERIENCE

Forward Deployed Engineer Intern May 2026 - Present
GIC

- Building AI agent deployment systems and using workflow automation tools.

Algorithm Engineer Intern Jan 2026 - Apr 2026
Shopee

- **Fine-tuned** pretrained vision transformer backbone for image classification tasks.
- Explored parameter efficient fine tuning methods e.g LoRA
- Conducted **systematic ablation studies** on optimisation hyperparameters, to analyse impact on accuracy and convergence behaviour.
- **Robustness** training to defend against **adversarial attacks** and real-world image augmentations.

AI Engineer Intern (AIIP) May 2025 - Aug 2025
AI Singapore

- Conducted literature reviews on SOTA document parsing and evaluation methodologies, focusing on **document layout analysis techniques**.
- Designed and implemented a **multi-step reasoning agentic document generator** using **LangGraph**.
- Developed and deployed an **end-to-end evaluation** pipeline leveraging cutting-edge metrics to rigorously assess model performance.
- Completed **3-week deep-skilling** in NLP, PyTorch, LLMs and built a RAG-based chatbot using HayStack and Hugging Face.

RELEVANT PROJECTS/HACKATHONS

2nd Prize - National AI Challenge 2025

Predictive Maintenance & Productivity Loss

- Developed an **end-to-end predictive ML model** and transformed it into actionable business insights.
- Integrated business insights into a **Retrieval-Augmented Generation (RAG) pipeline** as a GenAI chatbot. For easy querying of our findings via natural language.

Movie Recommender

ML-based Recommendation System

- Implemented various **contextual bandit algorithms** with different **reward maximisation strategies** in recommending movies to a user.
- Leveraged **bootstrapped offline evaluation** to simulate larger interaction datasets.

PantryPals

Full Stack Web-App

- Developed a web app using **React.js** that records pantry items and generates relevant recipes for each user.
- Utilised **Node.js** on the backend to interact with the **API** to generate recipes based on pantry items.
